

Terence Lee Bradshaw

Curriculum Vitae

Business Department of Plant and Soil Science, University of Vermont, Burlington, VT 05405
(802) 922-2591 terence.bradshaw@uvm.edu

Education B.S., Plant and Soil Science, University of Vermont, 1997.
M.S. Candidate, Plant and Soil Science, University of Vermont. Matriculated Summer 2009,
expected graduation Spring 2011.

Current Rank and Responsibilities:

Research Specialist. July 1999 to present. Dept of Plant and Soil Science, University of Vermont

Oversee and provide highly specialized technical assistance to include the development, design, and implementation of numerous field, laboratory, greenhouse, and storage research projects and activities in support of the apple horticulture and pest management program with general/minimal supervision from designated supervisors. Specific projects have included:

- Design assistance and implementation of multistate Organic Apple Research and Extension Program initiated 2006;
- Development and Implementation of research programs studying new winegrape cultivars for Vermont (NE 1020) and environmentally sound management practices (Achieving Adoption of Ecologically-Based IPM and Reducing Pesticide Risks in Cold Climate Winegrape Production in Northern New England, US EPA)
- Design and implementation of Integrated Pest Management (IPM) scouting program in research orchard at the UVM Horticultural Research Center (HRC) in South Burlington, VT;
- Implementation of fruit quality monitoring program at commercial orchards and packing houses throughout Vermont.

Other responsibilities include:

- Provide technical support to research and extension professors including updating agrichemical use and registration files, regulatory compliance, and emerging research and implementation topics.
- Overall management of research orchards and vineyard including pruning and training trees, pesticide application and recordkeeping, upkeep of irrigation and weather data collection equipment, maintenance of orchard and spray equipment, fertility management, and harvest.
- Development of operational budgets for various research projects and order equipment and supplies.
- Collect, summarize, and analyze field data and prepare reports for publication and outreach.
- Perform informal grower outreach through industry meetings, site visits, and grower participation in research projects. Participate in public relations at events.
- Interact with and assist undergraduate and graduate students in applicable studies.
- Supervise seasonal, hourly, and student employees.

Assistant Director Horticulture Research Center. October 2005 to present. College of Agriculture and Life Science, University of Vermont

General daily management of 100-acre agricultural research facility in South Burlington, VT. This position reports to the Associate Director of the Vermont Agriculture Experiment Station. General duties include

- Oversight of the facility including grounds management, security issues, pest control, equipment maintenance and operation;
- Protocol planning and plot allocation with research users,
- Responding to general inquiries including public relations, interaction with the Friends of the Hort Farm and support for Common Ground Student Run Farm,
- Maintenance of crop and chemical records according to accepted research protocols and State and Federal Laws
- General apple orchard management and sales,
- Assist undergraduate and graduate students in applicable studies.
- Supervise seasonal, hourly, and student employees

Terence L Bradshaw

Professional Associations

Member, International Society of Horticultural Scientists, 2009-.

Member, American Society of Horticultural Scientists, 2010-.

President, Vermont Tree Fruit Growers Association, 2009-.

Licensure and Training

Food Safety for the Cider Industry, Michigan State University. September 2009.

Cider Making – Principles and Practice. Mitchell F&D, Peter Mitchell Inst. August 2009.

Microinjection Technology Application for the Tree Industry. Mauget, Inc. March 2008

HACCP for the Juice Industry, University of Connecticut, July 2004

Vermont State Pesticide Applicator's License, 1995 to present.

- Commercial categories include 1A) plant and 10) research and demonstration.
- Private categories include 2) tree fruit and 3) vegetables and small fruit. Regularly attend extension and grower meetings to maintain licensing credits.

Academic Awards

Department of Plant and Soil Science, University of Vermont:

- 1996 recipient, W.H. Darrow Horticultural Prize. Presented to a student who has shown interest in and done original horticultural research.
- 1997 recipient, C. Lyman Callahan Award. Presented to a student who has shown outstanding interest in commercial horticulture.

Previous Experience and Responsibilities

Proprietor, Lost Meadow Orchard and Cider Mill. Calais, VT. Fall 2006 to present.

Owner-operator of a seasonal, home-based commercial retail orchard and cider mill. We specialize in fresh, unpasteurized apple juice as well as stock intended hard cidemakers made from apple varieties suited to and grown for fermenting.

Manager, Golden Apple Orchard. Charlotte, VT. January 1998 to November 1999.

Sole employee responsible for production, harvest, and sale of commercial apple crop at a pick-your-own and small wholesale operation. Duties included pruning, planting, and training of trees, fertility management, monitoring of orchard pests, groundcover management, and harvest, packing, storing, marketing, and delivery of crop. Pest management role involved pesticide selection, application, recordkeeping, and regulatory compliance. Work involved operation of agricultural equipment including tractors, sprayers, and mowers. Continuing education in industry practices expected and maintained.

Proprietor, Pomona Tree Fruit Service. Chelsea, VT, January 1998 to March 2000.

Operation of a complete fruit tree care business. Pruning, fertility management, custom grafting and planting, consultation and site analysis services were offered.

Field Supervisor, Tougas Family Farm, Northboro, MA. April 1997 to December 1997.

Carried out day-to-day production operations of a large pick-your-own and retail farm specializing in apples, peaches, and small fruits. Involved in all aspects including field and orchard work as well as customer assistance and employee supervision. Work involved operation of agricultural equipment including backhoe, tractors, sprayers, and mowers. Continuing education in industry practices expected and maintained.

Intern, University of Vermont Apple Team. May 1995 to April 1997.

Duties included maintenance of University orchards, upkeep of pest and weather monitoring programs, and experimental data collection.
